

KAIRAV PITHADIA

📍 Ahmedabad, Gujarat, India | ✉ kairavpithadia13@gmail.com | [in LinkedIn](#) | [gh GitHub](#) | [M Medium](#) | [🌐 Portfolio](#)

Summary

Backend/AI engineer with 6+ years shipping production systems in Python and Go on AWS. Built and own agentic LLM pipelines (OpenAI & Claude) that automate high-volume, unstructured document workflows end-to-end — from prompt orchestration and tool composition to deployment and monitoring. Experience directing architecture decisions, reviewing code, mentoring and onboarding engineers, and collaborating async with US-based teams across time zones.

Professional Experience

Lighthouse AI Inc. (YC S24, Remote)

Dec, 2024 – Feb, 2026

Senior Full Stack Engineer

San Francisco, California

- Architected and owned an asynchronous document engine using AWS Step Functions (State Machines) and SQS, processing over 900k invoices to date, mentoring engineers extending the platform.
- Engineered an agentic Classify-Extract-Audit pipeline — designing prompt orchestration, tool composition, and multi-step reasoning (context engineering) — using LLMs from OpenAI and Claude alongside AWS Textract, enabling reliable automated extraction and logic-based auditing over unstructured enterprise carrier documents.
- Built the company's React web application and a matching Outlook Add-in, enabling users to execute the full product feature set directly from their inbox.
- Integrated core workflows with legacy TMS/FMS systems (Factorsoft, WinFactor, Tai, 3PL) by developing custom ETL adapters to normalize data between disparate APIs.
- Reduced the delivery-to-payment cycle for brokers by 24+ hours and enabled same-day payment for factoring firms by automating manual document verification, while collaborating async with a US-based team across time zones.

Savor Operations - Formerly Dashy Dash (Remote)

Oct, 2022 – Aug, 2024

Lead Backend Engineer

San Francisco, California

- Directed architectural decisions for assigned projects, reviewed code and mentored junior engineers, and onboarded new hires; partnered with teammates to take initial POCs to production-grade releases.
- Reduced invoice processing time from days to minutes by developing scalable pipelines and user-friendly Retool applications, reducing processing time by 99.83%.
- Optimized deployment across multiple AWS accounts by managing cloud infrastructure with Terraform, containerizing services with Docker across ElasticBeanstalk, ECS, EC2, Lambda, and Glue ETL jobs.
- Designed PostgreSQL schemas and managed migrations, read replicas, and materialized-view-backed analytics tables to scale reporting workloads without impacting primary database performance.
- Streamlined CI/CD using GitHub Actions, reclaiming 20+ engineering hours per month across a 5-person team and enabling near-instant rollbacks through Terraform-managed infrastructure versioning.
- Extended the core invoice pipeline with third-party integrations (EDI, ClickUp, Zaru, Impira) and OpenAI-powered automation, enabling end-to-end workflow coverage across the billing lifecycle.

Cilans Systems Pvt. Ltd. (On-Site)

Oct, 2020 – Sep, 2022

Senior Software Engineer

Ahmedabad, Gujarat

- Led migration from monolith to microservices for Costa Coffee's Storefront using NestJS, TypeScript, KafkaJS, and GraphQL, making key architecture decisions and mentoring junior engineers through the effort.
- Engineered backend solutions across 6+ client projects, adapting architecture to each client's domain.
- Managed AWS RDS for PostgreSQL, provisioning infrastructure with Terraform and running schema migrations via Django.

Technical Skills

Languages: Python, Go, JavaScript/TypeScript.

AI/LLM: OpenAI & Anthropic (Claude) APIs, agentic pipelines, prompt orchestration & context engineering, AWS Textract.

Frameworks: FastAPI, DRF, NestJS, React.

Infrastructure: AWS, GCP, Docker, Terraform, GitHub Actions.

Data: PostgreSQL, MongoDB, Kafka.

Education

B.Tech in Information and Communication Technology

Aug, 2016 – Jun, 2020

School of Engineering and Applied Science, Ahmedabad University

Ahmedabad, Gujarat
